NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS For the three and nine months ended December 31, 2024 and 2023 (Unaudited) (In Canadian dollars)

#### 1. Going concern

These condensed consolidated interim financial statements have been prepared on the basis of accounting principles applicable to a "going concern", which assumes that Burcon NutraScience Corporation ("Burcon" or the "Company") will continue its operations and be able to realize its assets and discharge its liabilities and commitments in the normal course of operations for the foreseeable future. In assessing whether the going concern assumption is appropriate and whether there are material uncertainties that may cast significant doubt about the Company's ability to continue as a going concern, management considers all available information and actions within its control with respect to the future which is at least, but not limited to, twelve months from the end of the reporting period.

The Company has incurred losses since its inception and as at December 31, 2024, had an accumulated deficit of \$148.1 million (March 31, 2024 - \$142.0 million) and negative working capital (current liabilities in excess of current assets) of \$1.7 million (March 31, 2024 – positive working capital of \$3.8 million). During the nine months ended December 31, 2024, the Company incurred a net loss of \$6.0 million (2023 - \$5.4 million) and had negative cash flow from operations of \$4.5 million (2023 - \$4.1 million).

Subsequent to December 31, 2024, the Company has entered into a binding term sheet for a contract manufacturing agreement (the "Manufacturing Agreement") with a strategic investment partner. The Manufacturing Agreement will provide Burcon exclusive access to its manufacturing capacity and Burcon will use this facility as its exclusive manufacturer. On February 13, 2025, Burcon announced that the Company closed a rights offering raising gross proceeds of \$9.4 million. Refer to Note 15.

The Company's ability to continue as a going concern is dependent upon the Company's ability to successfully commercialize its technologies, scale production, and generate revenue. The Company expects to use the proceeds from the rights offering to fund the commercialization and production of its plant proteins; however, the Company may require additional capital. The Company has historically relied on equity and debt financing to fund its operations. While the Company is considering various financing options for its short-term and long-term liquidity requirements, there can be no assurance that additional financing may be available on acceptable terms, if at all. If Burcon is unable to raise additional funds when it needs them, it may be required to delay, reduce, or eliminate some or all of its commercialization efforts or research and development programs. Therefore, these conditions result in material uncertainties that cast significant doubt over the Company's ability to continue as a going concern.

These condensed consolidated interim financial statements have been prepared on a going concern basis, which assumes that the Company will be able to meet its commitments, realize its assets and discharge its liabilities in the normal course. These condensed consolidated interim financial statements do not reflect adjustments to the carrying values of assets and liabilities that would be

necessary if the Company was unable to continue as a going concern and such adjustments could be material.

## 2. Nature of operations

Burcon is headquartered in Vancouver, British Columbia, Canada.

Burcon is a plant protein technology company that has developed high purity and functional proteins for foods and beverages derived from pea, canola, soy, hemp, and sunflower seeds, among other plant sources. The Company has an extensive portfolio of composition, application and process patents covering its technologies.

# 3. Material accounting policies

#### **Basis of presentation**

These condensed consolidated interim financial statements are prepared in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board ("IFRS Accounting Standards") applicable to the preparation of interim financial statements, including International Accounting Standards ("IAS") 34, Interim Financial Reporting. Except as described below, the accounting policies applied in these condensed consolidated interim financial statements are the same as those applied in the Company's most recent annual consolidated financial statements.

These condensed consolidated interim financial statements do not include all of the information required for full annual financial statements and, as such, should be read in conjunction with the Company's consolidated annual financial statements for the year ended March 31, 2024.

The condensed consolidated interim financial statements were approved and authorized for issue by the Audit Committee of the Board of Directors on February 12, 2025.

## Principles of consolidation

These condensed consolidated interim financial statements include the accounts of the Company and its subsidiary. All material intercompany transactions and balances have been eliminated on consolidation.

Details of the Company's subsidiary as at December 31, 2024 is as follows:

	Place of incorporation	Interest %	Principal activity
Burcon NutraScience (MB)	Manitoba,		
Corp.	Canada	100	Research and development

NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS For the three and nine months ended December 31, 2024 and 2023 (Unaudited) (In Canadian dollars)

Subsequent to December 31, 2024, the Company incorporated a new subsidiary, Burcon NutraScience (US) Corp., in the state of Delaware, USA, of which Burcon has a 100% interest. The principal activity of this subsidiary is to manufacture and sell its protein isolate (refer to Note 15).

#### Revenue recognition

The Company has multiple revenue streams and revenue is recognized in a manner that depicts the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services:

- Revenue from the sale of protein isolate is recorded at the point of sale, when the customer assumes control of the products as defined in the terms of agreement with the customer.
- Revenue associated with contract research services are recognized when the services are rendered.
- Revenue earned from licensing agreements that grant third parties rights to use the Company's technologies are earned based on sales made by the licensee.

#### Newly adopted accounting standards and amendments

Amendments to IAS 1 – Classification of Liabilities as Current or Non-Current

The amendment clarifies the classification requirements to determine if a liability should be presented as current or non-current in the statement of financial position. Under the new requirement, the assessment of whether a liability is presented as current or non-current is based on the contractual arrangements in place as at the reporting date and does not impact the amount or timing or recognition. The amendment was adopted on April 1, 2024 with retrospective application and the adoption did not have a significant impact on the consolidated financial statements.

#### 4. Protein Industries Canada

Protein Industries Canada ("PIC") is an industry-led, not-for-profit organization committed to positioning Canada as a global source of high-quality plant protein ingredients.

During the year ended March 31, 2024, Burcon entered into a collaborative agreement with PIC for the commercialization of hempseed and sunflower seed protein.

During the three and nine months ended December 31, 2024, Burcon recorded PIC grants of \$78,441 and \$636,188, respectively (2023 - \$nil and \$nil), as government assistance against research and development expenses, general and administrative expenses, inventory, and property and equipment, of which \$nil is included in amounts receivable (March 31, 2024 - \$457,118). As at December 31, 2024, Burcon had received \$108,441 in advance payments in respect of eligible expenses to be

## 15. Rights Offering and Production Facility

On February 3, 2025, Burcon announced it has entered into an agreement with ProMan for the purchase and operation of a protein production facility (the "Protein Production Facility"). Burcon and ProMan have entered into a binding term sheet setting out the key terms of a contract manufacturing arrangement (the "Manufacturing Agreement") as follows:

- ProMan will purchase the Protein Production Facility and grant Burcon exclusive access to 100% of manufacturing capacity for production of Burcon's plant protein portfolio;
- Burcon to use ProMan as its exclusive manufacturer for its protein products;
- Burcon to produce and sell its entire portfolio of plant proteins;
- Seven-year term Manufacturing Agreement, after which Burcon and ProMan will enter into a tenyear lease agreement;
- Burcon to pay ProMan an annual production fee during seven-year term; and
- ProMan has granted Burcon a right of first refusal to purchase the facility in the event ProMan desires to sell the facility.

On January 31, 2025, Burcon announced that ProMan has signed a Purchase and Sale Agreement to acquire the Protein Production Facility (the "Transaction"). The closing of the Transaction is subject to certain conditions, including satisfactory due diligence and approval of the parties.

The obligations of Burcon and ProMan under the term sheet and Manufacturing Agreement are subject to receipt by Burcon of all required regulatory approval, including the Toronto Stock Exchange and Burcon's shareholders, ProMan acquiring the Protein Production Facility on or before April 30, 2025 and Burcon completing a minimum financing (including the Rights Offering) or at least \$7 million.

Refer to note 16 for discussion of the related party nature of Manufacturing Agreement.

On November 20, 2024, Burcon also announced it was offering rights (the "Rights Offering") to holders of its common shares of record at the close of business on November 26, 2024. Pursuant to the Rights Offering, each holder of common shares will receive one transferable right (a "Right") for each common share held. Each Right will entitle a holder to purchase one common share at a price of \$0.085 (the "Subscription Price"). The Subscription Price is equal to an approximately 39% discount to the volume weighted average trading price of the common shares on the Toronto Stock Exchange for the 5-day period ending November 19, 2024.

On February 13, 2025, Burcon announced that the Rights Offering closed and the Company raised gross proceeds of \$9.4 million and issued 110,986,126 common shares.

#### 16. Related party transactions

In June 2022, Burcon entered into a loan agreement with Large Scale Investments Limited, a wholly-owned subsidiary of Firewood Elite Limited ("Firewood"), for the Secured Loan of up to \$10 million

that would be made available to Burcon in two tranches of \$5 million. Firewood, a related party of Burcon that has significant influence over the Company, is wholly-owned by Mr. Alan Chan, a director of the Company. Refer to Note 6 (a).

In March 2024, the Company entered into a one-year consulting agreement with a director of the Company for the provision of financial and strategic advisory services. As compensation of the services, the Company issued 5,000,000 warrants ("Consultant Warrants") which are exercisable to acquire one common share at an exercise price of \$0.27 up to June 25, 2026. Vesting of the Consultant Warrants are subject to shareholder approval, which was obtained at the Company's annual general meeting held on September 18, 2024. Refer to Note 7 (c).

On January 24, 2025, Burcon entered into the Bridge Loan with ProMan (refer to Note 6 (b)). On February 3, 2025, Burcon announced it entered into a term sheet with ProMan for the purchase and operation of the Protein Production Facility (refer to Note 15). ProMan is controlled by Mr. John Vassallo, a director and shareholder of Burcon.

#### 17. Segment information
